Applicants have elected Gp. III, claims 1,48,49,52,54-69,74-80,84-92,96-101 and 113-117 without traverse. Gp. IV, claims 1,48,49,53-69,74-80,96-101 and 113-117 will also be examined. The pharmaceutical compositions of claims 118-125 will also be examined. The single method concept that will be examined is the treatment of Parkinson's disease or hypertension with a composition comprising levodopa or prodrugs thereof and the carbidopa esters of the instant invention. Non-elected claims 2-47,50,51,70-73,81-83,93-95, 102-112 and 136 are withdrawn from consideration.

Claims 126-135 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claims must be limited to the treatment of Parkinson's Disease or hypertension with a composition comprising levodopa or prodrugs thereof and a compound selected from Gps. III and IV.

Claims 1, 48,49,52-69,96-101 and 113-135 are objected to for being drawn to a misjoinder of invention for the reasons given in the previous Office Action. The non-elected compounds of Gps. I, II, V and VI must be canceled.

Claims 74-80 and 84-92 are drawn to allowable subject matter but are objected to for depending from non-allowable claims.
